Executive summary

Dr Ameya Kamat is a distinguished Neurosurgeon, dedicated to implementing his innovative approach tailored to the unique needs of both paediatric and adult patients. He specialises in surgically treating conditions affecting the brain, spine, and peripheral nerves, utilising his expertise to deliver personalised care.

Dr Kamat has completed a Complex Spine Fellowship at Macquarie University Hospital in Sydney and is a Fellow of the Royal Australasian College of Surgeons. He has written many clinical and scientific studies published in peer-reviewed medical journals and presented at industry conferences worldwide.

Dr Kamat takes an innovative approach to his practice, focusing on non-surgical treatments and lifestyle changes for his patients first.

Then, if necessary, he offers both minimally invasive and traditional surgical procedures.
