Executive summary

Dr Robert Bourke is a distinguished Clinical Neuropsychologist with over 16 years of experience in the field.

Dr Robert Bourke earned his Doctorate in Clinical Neuropsychology from The University of Melbourne in 2008. He has held several senior leadership roles in the public health sector, including Manager of the Neuropsychology Unit at Monash Medical Centre and lead neuropsychologist at the Cognitive Neurology Service at The Royal Melbourne Hospital.

Dr Bourke is the founder and director of Eastern Neuropsychology, where he currently practises. He takes a comprehensive approach to evaluate and treat a diverse range of disorders, with special interests in acquired brain injury, forensic neuropsychology, neurodegenerative disorders and dementia, neurological and psychiatric conditions, symptom validity, and decision-making capacity.
